SEED FORUM ÅLESUND

The Seed Forum concept was created in Norway spring 2002 in the Campus Kjeller Science Park, and the Seed Forum Norway Foundation was founded in March 2003 as an initiative by the Seed Forum Norway Entrepreneurs Alumni Network. The Seed Forum Norway Foundation took the initiative in 2004 to establish the Seed Forum International Foundation working out of London which is the international collaboration entity for Seed Forum National not-for-profit foundation in various countries. The activity of the Seed Forum Norway Foundation is from 2005 concentrated on developing the Seed Forum process in all regions of Norway in co-operation with Innovation Norway, the Industrial Corporation of Norway (SIVA), the DnBNOR bank and many other partners.
